

NEWSLETTER: OCTOBER 2010

TURKEY FESTIVAL

Another successful Noble Eagle venture at the 25th annual Eldon Turkey Festival. The “world famous” Noble Eagle Duck Pond was a huge success. About 300 quality stuffed animals were given out to young kids....the excitement and smiles were amazing. This year a cow bell was added, and rung each time a winning duck was picked (or course, every duck was a winner!). Our neighbors in the surrounding booths took up a collection for us to STOP using the cow bell, but not enough money was raised to make it happen!! Thanks to everyone who worked setting up the booth, working the Festival, and taking down the booth after the event! When people passing by tell you your booth is “amazing” or the “most entertaining” you know you are doing something right. A special thanks to Lisa Veatch and Vickie Devine for providing ALL of the stuffed animals at NO COST this year!

STUFFED ANIMALS

Speaking of the Turkey Festival, we need to come up with a source of QUALITY stuffed animals for next year! Our former source thru Bob and Pat is no longer available, and this year’s gift from Lisa Veatch and Vickie Devine was a one- time shot. Coming up with 300+ stuffed animals is a challenge, so keep your eyes opened to any opportunity!

FIRST FRIDAYS

By the time this newsletter gets out, we would have had our THIRD “First Friday”. These events have been very successful. It is important that each member make every possible attempt to attend these! Bring your friends and/or potential members and show them the “social” side of the Noble Eagles!

LAKE OZARK BIKEFEST/BITCHLESS BUTTER

The weekend of September 17th was perfect for the 2010 Bikefest. What a crowd! The sight of bikes parked in the center lane all the way up the Bagnell Dam Strip was a great thing to see! The Rock and Alley Cats were humping!!! The Noble Eagle official “camp site” below Bagnell Dam was a blast....“welcome to the trailer hood”! Thanks to all who helped make it a great time! The only know casualty during the weekend was FurrBall. After his bike broke down, Furrball attempted to ride “bitch” behind Butter back to the campground. While trying to hop on behind the smiling and somewhat excited Butter, Furrball blew out a knee and fell to the ground. A car was secured to take Furrball, and a saddened Butter rode alone to the campground.

WARRENTS ISSUED FOR BUTTER/PLUG---CHARGED WITH CHILD ENDANGERMENT

A task force of Lake Ozark Police and Miller County Deputies are on the lookout for both Butter and Plug. According to recently unsealed court documents, they are charged with being the last two adults with Halfway on Saturday, Sept. 18 during Bikefest. An unnamed source indicated these two made the decision to leave Halfway all by himself at a campground for the evening. "Clearly, in the condition Halfway was in, at best he had the physical and mental state of a 3 year old" said the source. "It is just beyond comprehension how these two thought there was any way this person could take care of himself" the source indicated. Attorneys for both Butter and Plug feel confident their clients will be victorious in court. While interviewing Halfway as they prepare for possible trial, they quoted Halfway as saying "Bikefest? What Bikefest? Hell, I thought I was in Little Sturgis!" (see related story below)

CAMPERS REPORT SIGHTING OF ALIEN CREATURE BELOW BAGNELL DAM

Psychics and UFO enthusiasts are flocking to a small campground located below Bagnell Dam as reports of an alien sighting continue to come in. Numerous eyewitnesses have stated seeing something they describe as "almost human" during the late evening of September 18. According to many, the alien appeared dressed in only boxers and black boots. While apparently unable to walk in an upright human manner, the alien was seen scurrying around the grass on all fours, only stopping to occasionally lift its' left hind leg to urinate. One eyewitness stated "I believe the creature was trying to communicate. While I don't think it was speaking English, I could swear that alien kept repeating "must hit on 19" and "where is Butterfucker?" It was so eerie....it sounded almost human." The sightings eventually led authorities to a large black trailer, but upon entering, they discovered only one human in the trailer. According to police, the individual was found nude and asleep in a fetal position. A black leather vest near the sleeper had a name badge of "Halfway" on it.

IN THE ARMY

God help us! Digit has joined the Army Reserve! Yes, after killing and maiming numerous civilians over the years, the Army has decided to unleash a secret weapon on our enemies----Dr. Digit! Some of our Marine, Air Force, and Navy members have always questioned the choices made by the Army, but bringing in Digit as an officer???? Actually, signed up for 3 years, we are proud of our brother who has decided to serve!

MISSING IN ACTION

Has anyone seen or heard from Brother K? The harmony and brotherhood at the Nest and events is getting boring. We need Br. K to stir the pot a little!
